**DETAILED ACTION**

***Allowable Subject Matter***

1. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach or suggest the limitation of "wherein each source node of the plurality of transistors forming the floating current mirror are directly coupled together; wherein the source node of each transistor forming the floating current mirror is not directly coupled to a ground node; and wherein the source node of each transistor forming the floating current mirror is not directly coupled to a supply voltage node" as called for in independent claim 1; and the limitation of "wherein the pull-down transistor has one end coupled with the floating current mirror and a gate coupled with the voltage node, so as the amount of current provided by the first transistor increases, the pull-down transistor diverts an amount of current received by the first transistor" as called for in independent claim 11.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
